RED CROSS

# Our team and this serendipitous encounter

Our effective team captain: Jimmy

Our amazing designer; Madhu

Our magical techies: Jay & Abbas

Our creative cheerleader: Alvin  
Organically formed & willing and able to see this  
through

THE NETHERLANDS  
RED CROSS

# The process

- We wanted something that everybody can do & with minimum (measuring) equipments
  - Works offline and with GPS
- Is more effective than manual data gathering
  - Language independent

AN INITIATIVE OF  
THE NETHERLANDS  
RED CROSS

# Our solution:

- We let volunteers take pictures instead of doing manual data entry
- We use AR (augmented reality) to asses flood extent mapping & flood damages
